

From everyone in Medical Life Lines volunteer team and United Ukraine Foundation we would like to express our sincere gratitude to Our Lady of The Annunciation, the Catholic Parish Church of Addiscombe, in Croydon South London and Parish Priest Fr. Keith Sylvia for the support and assistance to the people of Ukraine.

Our Lady's Church members have raised £8,125 for the purchase of two 10kW electrical generators. The power of these generators is sufficient to support the operation of hospital and surgery theatre equipment, and, if necessary, the generator will be able to maintain electricity and the operation of the powerful pumps in a 9-storey building.

Both generators will be donated to the Department of Emergencies Situations in the most affected regions of Ukraine to keep alive cities and towns that have power supply cuts.

The volunteers of Medical Life Lines and United Ukraine Foundation will be transporting generators to Ukraine in the decommissioned ambulances which will be donated to Ukrainian hospitals.

Thank you for your support!

Medical Life Lines and United Ukraine Foundation
